SEMSWA WATER ACTIVITY ENTERPRISE

RESOLUTION 21-15  
Authorization to Fund the Hydrology Update and Preliminary Design  
of the Lee Gulch Channel Improvements

WHEREAS, the Lee Gulch Channel Improvements (Project) were identified in the 2016 “Lee Gulch Alternative Analysis Report” prepared by ICON Engineering, Inc.; and

WHEREAS, the Project is located north of County Line Road to East Nichols Avenue along Lee Gulch; and

WHEREAS, the Lee Gulch has experienced increased aggradation caused by increased runoff and storm flows; and

WHEREAS, SEMSWA desires to design and construct improvements for grade control, flood conveyance, and stabilization within the Project limits; and

WHEREAS, the cost of the engineering to update the baseline hydrology and complete a preliminary design and other design related services for the Project has been estimated to be \$80,635; and

WHEREAS, it is typical to budget the engineering design amount plus an additional ten (10) percent (\$8,064) to cover contingencies that may be encountered during design; and

WHEREAS, SEMSWA has adopted a budget for calendar year 2021 subsequent to public hearing, which includes funds for the design of the Project.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. The Board authorizes the Executive Director to enter into a contract on behalf of SEMSWA for the design of the Project.
2. The funding for the design of the Project is limited to \$88,699 without prior approval of the Board.
